Laura,

I suggest you contact EPAs communications office. I've cc'd Liz Bowman who can assist with your request.

Regards,
Nancy

Dear Dr. Beck,

I'm writing a story on your appointment to head EPA's chemical unit. I wanted to give you a heads up on the story and to see if you wanted to comment.

Specifically, the story details concerns that some scientists and environmental groups have expressed about potential conflicts of interest arising from your previous role at ACC, including some of your testimony questioning findings on 1-bromopropane, on IRIS and on methods used by the EPA to evaluate chemical risk. They argue that your past advocacy for the industry trade group points to a less protective approach toward public health and the environment in favor of industry priorities.

I would like to include your response to these comments and any other thoughts you'd like to share on this topic. My contact info is below.

Thanks for your attention.

Best,
Lauren
